

60K2LL

NEW
6.0 RM

- New medium-statured LibertyLink® soybean product
- Good protection against both SCN and Root Knot Nematode
- K gene resistance for Phytophthora Root Rot
- Strong tolerance to both Sudden Death and Frogeye

E = Excellent VG = Very Good G = Good A = Average F = Fair P = Poor NR = No Rating

Agronomics

Emergence	NR	P	F	A	G	VG	E
Reaches Canopy Fast							
Stress Tolerance							
Standability							
Green Stem							
Shatter Resistance							

Characteristics

Plant Height	Medium
Plant Width	Bush
Flower	White
Hilum	Buff
Pubescence	Gray
Pod	Brown
SCN Race	3=R, 14=R
Phytophthora Root Rot Gene	K

Disease Resistance

Phytophthora Root Rot Field Tolerance	NR	P	F	A	G	VG	E
Charcoal Rot							
Stem Canker							
Frog Eye							
Sudden Death							

Management Recommendations

Irrigation	**
No Till	**
Wide Rows	***
Narrow Rows	**
Higher Populations	***
Lower Populations	**
High Organic	****
Clay and Variable	**
Light and Sandy Soils	**

**** = excellent, *** = very good, ** = good, * = fair, NR = Not Recommended

Notes
