

# AgriMAXX 473

Soft Red Winter

high performance wheat

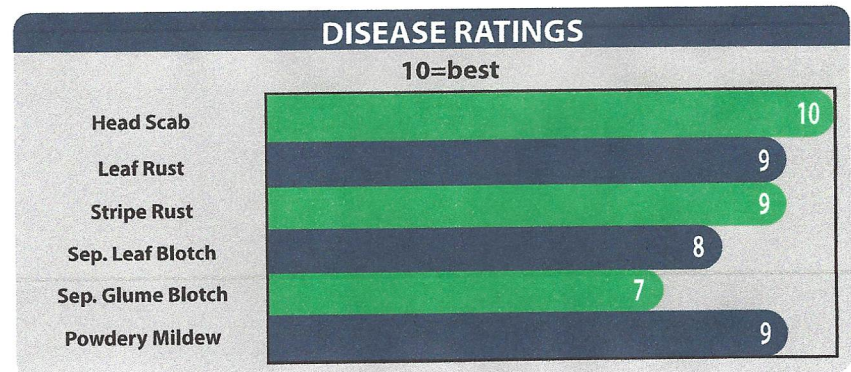

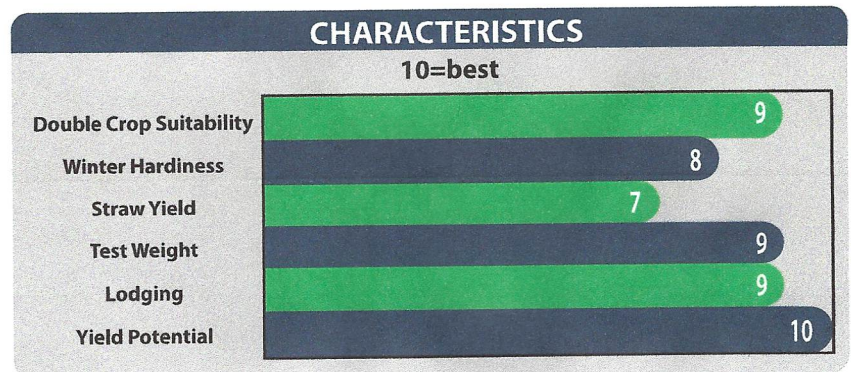

Maturity	Medium Early
Head Type	Awned
Height	Medium

## Key Points:

- Dominant yielder
- Heavy test weight
- Head scab resistant for added security
- Excellent foliar disease health
- Workhorse & racehorse combination
- Resistant to multiple forms of Hessian fly

AgriMAXX 473 is a variety everyone will want to show off to their neighbors. This highly attractive head turner displays an incredible disease package against all major yield robbers, including head scab. We've been waiting in anticipation for several years for the launch of this special variety, and we believe every wheat grower should have this on their farm. Dominating across many environments, 473 will perform in tough conditions while also excelling in high management programs.
